PowerPlay Golf - How It Works

PowerPlay Golf is easy to learn  one game and you're hooked. It is a 9-hole Stableford, with a twist. You score double points for net birdie or better when playing to the Black Flag (which we call going for a PowerPlay), but with only 3 PowerPlays available in your first 8 holes you must choose your PowerPlays wisely.

And on the last hole, it's decision time. A last-hole PowerPlay birdie or eagle wins double points, and possibly the tournament  but failure to make par spells disaster  you lose 3 points for bogey or worse on a last-hole PowerPlay.
